Name

Is Manuf.

 Add Manuf. Override Name

Tags

 Add to Category Create New Tag Remove Tag

Inherited

☐

Remove and Inherited are actions for the selected Back Tire Tag

Is Manufacturer to be discussed.

Optional Feature to be implemented. Allow category to server as a manufacturer concept

Override name will just set existing manuf. name to category name. For nesting precreated manufs in categories

Allow Tag Lookup in other products or already defined tag values.

We dont want to make him enter Bontager 2.2. if that was already entered as a product in maybe Gear -> Tires or if another bike has the value for the Front Tire Tag Bontager2.2.
